

# LINGUISTIC VALIDATION CERTIFICATE

## Family Reported Outcome Measure (FROM-16)

This is to certify that **ICON Language Services** conducted the linguistic validation of the **paper** version of the **FROM-16** (source file name: **FROM-16\_AU1.1\_eng-GBori**) into **German for Austria**.

The aim of linguistic validation is to obtain translations that are:

- conceptually equivalent to the original and comparable across languages;
- culturally relevant to the context of the target country;
- easily understood by the people to whom the translated instrument is administered.

This is achieved using a rigorous ISO-17100 certified methodology<sup>1</sup> involving:

- a process which comprises several steps;
- the instrument's developer input on conceptual issues;
- a skilled team recruited by **ICON Language Services** in the target country and headed by a consultant with knowledge of and experience in the field of Clinical Outcome Assessments. The consultant supervises and coordinates the linguistic validation process in his/her country;
- a centralized review process coordinated by **ICON Language Services**, including quality control by linguists and discussions about translation decisions with the consultant at each step of the process.
- cross-cultural harmonisation to ensure common understanding of the instrument's concepts by all participants involved in the process and achieve conceptual equivalence across languages.

**The aforementioned translation (filename : FROM-16\_AU1.1\_deu-AT\_14DEC2022, dated 14 December 2022) underwent the following steps:**

- Adaptation step based on the German version for Germany in order to render the translation appropriate for the context of Austria
- Proofreading step

The mother version on which the linguistic validation work was based has not been produced by ICON. The mother version on which the linguistic validation work was based had previously undergone the following steps:

- Forward Translation step
- Backtranslation step
- Cognitive Interview step
- Proofreading step

**ICON Language Services** may not be held liable for any changes made on the translation after completion of project **0517-TR-0166** by **ICON Language Services** on **14 December 2022**.
